

If You've Got Broken  
Tools, You May Have  
Broken Some Rules.

We have the perfect solution.

## jCore Compliance Suite e-Blotter & Alerting Tools

How would your life be if you didn't have to scramble to find accurate reports for auditors? Well, scramble no more. The jCore Compliance solution is the antidote to inaccurate and inaccessible financial information.

In addition to our e-Blotter and Alerting tools, jCore Compliance can:

- Automate your OFAC and FinCen contact review
- Automate 36 month mailings, address change, and welcome letters
- Ensure integrated license checking for compliant trades and commissions payments

Heading off future, unsuitable transactions is seamless...

**e-Blotter automatically flags your transactions on a risk-based set of rules.**

**Alert driven auditing.**

**Status flag features quickly sort high risk transactions.**

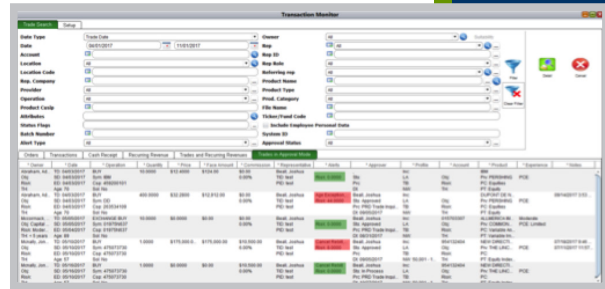

**Track and store your documents  
Record keeping through workflow for all communication between the back office and the field, from beginning to end.**
